

SAP EarlyWatch Alert Report

=====

System ID: QAS
System Type: ABAP
Report Date: 04.08.2026
Overall Assessment: RED

1. Service Summary - Rating Overview

Hardware Capacity GREEN
Performance RED
SAP System Operating YELLOW
Database Performance YELLOW
Security RED
Software Configuration GREEN

2. Alerts and Recommendations

ALERT [RED] Performance: Long running dialog steps degrade end-user response time

Description: Average dialog response time exceeded 1200 ms during peak hours.

Recommendation: Review expensive SQL statements and add appropriate indexes. See SAP Note 1257308.

ALERT [RED] Security: SAP kernel is not on a current patch level

Description: The installed kernel patch level is below the recommended minimum and exposes known issues.

Recommendation: Update the kernel to the latest patch level. See SAP Note 2083594.

ALERT [YELLOW] Database: Database growth trend requires attention

Description: The database has grown by 18% over the last 4 weeks.

Recommendation: Enable data archiving for large tables. See SAP Note 2388483.

ALERT [YELLOW] HANA: Delta merge not optimally configured

Description: Several column store tables show a high delta storage ratio.

Recommendation: Review auto-merge parameters. See SAP Note 2057046.

ALERT [GREEN] Hardware: CPU and memory utilization within healthy range

Description: Peak CPU utilization stayed below 65% during the analysis period.

Recommendation: No action required.

ALERT [YELLOW] Basis: Number of update errors above threshold

Description: 42 update errors (SM13) were recorded during the analysis week.

Recommendation: Investigate failed update records. See SAP Note 385830.

ALERT [GREEN] Fiori: Fiori launchpad services are stable

Description: No gateway service errors were detected.

Recommendation: No action required.

ALERT [RED] Security: Default passwords still active for standard users

Description: Standard users SAP* and DDIC use default passwords in at least one client.

Recommendation: Change default passwords immediately. See SAP Note 2467.
